DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

- 2. Claims 1, 4-7, 9-12 and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by DiBella 5,006,585, with Arendt 5,236,987 submitted as evidence.
- 3. DiBella has been discussed already in the previous Office action. Example 6 shows that plastisols using the blend of a benzoic acid diester and monoester are known and column 7, lines 44-54 state that the total plasticizer level can be up to 200 phr and the ratio of the two plasticizers in the mixture can be any proportion according to need. On page 5, lines 1-6 DiBella states that in blend of the di- and monoesters a diester content of 60% by weight are suitable for as plasticizers. Arendt teaches a plastisol using a monobenzoate as the sole plasticizer, proving that high concentrations of the monobenzoate plasticizers are possible. Applicants are claiming a composition. The lack of discussion by DiBella concerning the properties of the monoesters is immaterial as far as patentability of the instant invention is concerned. The rejection is maintained.

Allowable Subject Matter

4. Claims 8 and 13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 1714

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter Szekely whose telephone number is (571) 272-1124. The examiner can normally be reached on 7:00 a.m.-5:30 p.m. Tuesday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vasu Jagannathan can be reached on (571) 272-1119. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
